The aim of the conference:

The overall aim of this multi-disciplinary conference is to bring together specialists from different branches of science and countries, academics and expert practitioners, in order to present their research and practical results, to promote an interdisciplinary dialog on topics related to the different issue of addictions, alcoholism and all other addiction, on psychosocial, therapeutical historical and economical issues.

We are mainly interested to stimulate scientific research in addictions and encourage new policies and more effective practice in the field.

Topics of the conference:

We welcome original research papers, case studies, ongoing projects and presentations on topics including, but not limited to, the following areas:

1. Sociological, psychological, medical and anthropological patterns of addictive behavior;
2. Cultural and spiritual issues in addiction; the multicultural and transcultural perspectives;
3. Individual, familial and social impact of addictive behavior in a multiperspective view;
4. Economical impact of addictive behavior and public policy interventions;
5. Social control and public policy concerning alcohol and other drugs/other addictions, in regards to their production, trade, consumption, addiction (prevention, therapy, rehabilitation);
6. History of alcohol and other drugs/other addictions, concerning their production/practice, using and addiction;
7. Good practice models in the addiction approaching: old and new challenges;
8. Prevention, therapy, rehabilitation and social-professional re-integration in addictions.
9. New drugs and new other addictions in the contemporary world.
